

## NCBTMB New York Sponsored Approved Providers

Effective January 1, 2012, the [New York State Education Department, Office of the Professions](#) is instituting requirements for continuing education (CE) and CE instructors. Under the new requirements, New York will recognize CE from providers and organizations that have been approved or are sponsored by an approved entity. The [National Certification Board for Therapeutic Massage & Bodywork](#) (NCBTMB) is an approved sponsor for continuing education in New York.

New York has specific guidelines for acceptable and unacceptable course content, as listed in this document, and NCBTMB New York sponsored Approved Providers are required to follow these guidelines. NCBTMB has agreed to accept responsibility for the maintenance of Approved Provider records, distribution of certificates, course reviews and will track instructor's massage therapy licensure, before granting sponsorship. All New York Approved Providers must remain current with their NCBTMB status to maintain sponsorship.

Upon completion of each course, NCBTMB's Approved Provider Department will issue certificates to the licensed massage therapist attendees, of each course, as requested by the New York State Education Department, Office of the Professionals.

If you wish to be sponsored by NCBTMB and are not a current Approved Provider you must submit the [Approved Provider Initial Application](#) and all of the materials required on this document.

Approved Providers must follow the course content guidelines and Presenter Requirements, set forth by the Commissioner of Education when teaching in New York.
